I understand that Theta notation is often used to denote functions whose asymptotic complexity is expressed in terms of their growth rate of the input size; for example: $O(n^2)$ is often used to denote functions whose growth is of the form $O(n * n)$, and so on. On the other hand, I'm wondering why we don't use a similar notation for theta notation; for example, we could say that: $\exists q(n) \in \Theta(n^2)$ means that there is a function $q(n)$ which is in theta notation of the function n^2 . In this way, we wouldn't need to change the definitions of Big O and Big Θ and there'd be less confusion in the literature. A: Theta notation is just a way of indicating that there is a gap in our knowledge. I'm not sure what the consensus is, but one thing that everyone seems to agree on is that it's not a completely rigorous concept. My guess is that you have read some textbook on complexity theory, where you will find that Theta is the notation for the complexity classes that are open to a constant factor. A: This isn't completely clear. Let's consider the functions $f(n) = n^2$ and $g(n) = n^3$. Clearly $f(n)$ is $\Omega(n^2)$ but $g(n)$ is not. If we write $\Omega(n^2) = \Theta(n^3)$, we can't really define a function φ such that $\varphi(n) = n^3$ - this function is not even computable! We can write $f(n) = \Theta(n^2)$

A few months ago, the developer of Active@ File Recovery announced that he's switching the focus of his project from "traditional" Windows file recovery to data recovery. With Active@ Data Studio, he's created a similar solution for the Mac. In fact, it can even recover files that have been deleted from an NTFS partition. The current VIN is being checked to see whether or not it is being sold under a new vehicle title. "Pending Sale" means that the title for the vehicle has been submitted by the seller to the DMV and is being checked for accuracy. The seller cannot transfer the vehicle until the title has been approved. If this is a vehicle that is a loss, a repossession, or a vehicle that is not worth repairing, a Pending Sale can sometimes be used to your advantage. The Pending Sale status will appear on the report for as long as the vehicle is on our lot. The Pending Sale status can last from a couple of days to a couple of weeks.
