I need to store the last login status for each user. So, I need to store a timestamp for each login (and not just for a user). Right now I have my auth middleware working fine, but I need to store the last login of each user. Here's my auth middleware: //Auth Middleware auth = \$auth; } /** * Handle an incoming request. * * @param \Illuminate\Http\Request \$request * @param \Closure \$next * @return mixed */ 2d92ce491b
