batch conversion: When converting a file of more than one picture, selected the conversion picture size. How does it work? Pic2Vec Serial Key uses the image recognition technology of MS Windows (usually inside the Paint program on your computer). In Pic2Vec, it is possible to recognize if the image is watermarked (black and white is "0" and white and color is "1"). If you are concerned that the application would be able to identify watermarked pictures, then you can use the camera to input the image of your choice into the software, or you can upload the image to the Pic2Vec application itself. b7e8fdf5c8
