Write a program that implements a simple telephone directory server. The server should be able to accept and return calls over the network. Users must be able to put in phone numbers for the directory. When a number is entered, the server must match it against one of the numbers in the database. If there is a match, the server should notify the caller and, if the caller is one of the database's defined contacts, automatically connect to that contact. You need to write program using Java that implements VoIP (Voice over Internet Protocol) connectivity for your application. VoIP (Voice Over Internet Protocol) is a technology which is used for transferring voice calls over the Internet as an alternative to the standard telephone network. Solve the following problem. An ASCII parser translates an input string of bytes to a string. The parser needs to parse a string as rapidly as possible. It is desirable to minimize the number of bytes read by the parser from disk. The objective of this task is to write a program that parses string of bytes in such a way as to minimize disk I/O. The program shall use the scanner and there are no restrictions as to the number of bytes available to be parsed. The program should be terminable (optional) The objective of this task is to write a program that parses string of bytes in such a way as to minimize disk I/O. Government workers have been on the dole for decades, which has fueled a middle-class of professionals, many of them employees of government corporations. Meanwhile, people outside the city have been cut off from the central town, its schools and community services. Has this caused some people to wander off? Yes. But nowhere near as much as many think. The middle class has been declining. It is slowly bleeding out because of the lack of demand in the economy and a gaping gap between income and consumption. When a sizable number of people with jobs are getting their government paychecks, and those workers can put a higher percentage of their income into their local communities than earlier generations of workers, the middle class is in good shape. If it were being taken away by federal and state governments, it wouldn't be much of an economy.
